11<sup>th</sup> February 2009

Dear Virginia

My name is Beverley Wareham and I'm not sure if you will remember me, but you treated me for about a year between 2007 and 2008 for infertility related to age issues?

Anyway, I just wanted to write and let you know that after our last session in December 2007 I finally achieved a natural pregnancy in February 2008. I am sure the year of acupuncture with you was a big contributing factor so wanted to write and thank you for the excellent treatment over that year.

I am delighted to say that the pregnancy was problem free and Charlie Zac Saunders-Wareham arrived on 5<sup>th</sup> November 2008, three months before my 45<sup>th</sup> birthday! He is now 14 weeks and growing fast and Sam (his big brother) adores him, as do we all. We are amazed to have achieved two successful pregnancies later in life and thrilled with our now complete family.

I just wanted to let you know and to include a couple of pictures of the two urchins.

---

Many thanks again for all your help.

Yours sincerely

Beverley
